PROFESSIONAL SUMMARY

Aspiring Software Engineer with a foundation in JavaScript, Python, C#, and SQL, backed by 3+ years of hands-on experience diagnosing and resolving complex technical issues across Windows, Active Directory, networking, and enterprise applications in production environments. Brings a strong debugging and root-cause mindset from Level 1/Level 2 support. Currently building software engineering skills in JavaScript, Python, C#, and SQL, with hands-on experience applying generative and agentic AI tools like Claude Code and Codex.

PROJECTS

HoloLens Mixed-Reality Visualization – MSc Dissertation (Unity, HoloToolkit) 2023

- Designed and built a 3D stereoscopic data visualization app; planned and executed a full test cycle including live user testing and QA sign-off for a mixed-reality application.

SuperShooter – 3D Wave-Based Shooter (Unity/C#) 2026

- Implemented core gameplay systems including enemy spawning, wave progression, player combat, and real-time game-state management.

Galactic Action – Action Game (Unity/C#, Solo Developer) 2026

- Designed and debugged a finite-state-machine-driven enemy AI system, systematically resolving defects across AI, navigation, and combat logic.

MacroTracker – Nutrition & Macro Tracking Web App (React.js, Vite, JavaScript) 2026

- Built and optimized a React-based nutrition tracking application, enabling users to log meals, monitor calories and macronutrients, and visualize progress through an intuitive interface.

Game Design Document AI Assistant 2026

- Built a Game Design Document AI Assistant using the Claude API and RAG over game design pattern references, which helps developers flesh out mechanics, balance ideas, and catch design gaps in rough game concepts, with its prompts iteratively refined through automated evaluation (dataset generation and model grading).

SKILLS

Programming Languages: JavaScript, Python, C#, SQL

Generative AI: Prompt engineering, Generative AI, Agentic AI

Identity & Access Management: Active Directory, User Account Administration, Account Provisioning, User Onboarding/Offboarding, Password Resets, Account Unlocks, Group Membership, MFA/2FA

Networking & Remote Support: TCP/IP, DNS, DHCP, VPN, Cisco AnyConnect, Remote Desktop Support, Network Troubleshooting, Wi-Fi Troubleshooting

Hardware Support: Desktop/Laptop Troubleshooting, Hardware Diagnostics, Peripheral Troubleshooting, Monitors, Docks, Printers, Mobile Devices

Tools & Technologies: ServiceNow, Microsoft Intune, Active Directory, Microsoft 365, Cisco AnyConnect, HP Diagnostics, HP Cloud Recovery

Other: Claude Code, Codex, English (Proficient), Kannada (Native), Hindi (Intermediate)

EDUCATION

City, University of London *MSc, Computer Games Technology*, 2022 – 2023

Atria Institute of Technology *B.E., Information Science and Engineering*, 2016 – 2021

WORK EXPERIENCE

HP CCC – Bangalore, India **L1 Technical Engineer**

March 2026 - August 2026

- Provided L1/L1.5 technical support to commercial customers via phone and email, troubleshooting Windows, hardware, software, networking, and peripheral-related issues.
- Diagnosed laptop, desktop, monitor, docking station, battery, Bluetooth, HDMI, boot, POST, display, and connectivity issues using HP diagnostics and structured troubleshooting procedures.
- Resolved Windows, driver, BIOS, and application issues using F2 diagnostics, Windows Recovery, Startup Repair, System Restore, power-drain, CMOS/CBR, and HP Cloud Recovery.
- Created and maintained detailed case documentation, troubleshooting notes, resolution details, warranty information, work orders, and escalation records while following support processes and SLAs.
- Coordinated with field engineers, service centers, internal teams, and customers to escalate and resolve complex technical incidents and service requests.

DXC Technology – Bangalore, India **Senior Technical Engineer**

April 2021 – August 2022

- Provided L1/L2 technical support to global users through phone, email, chat, and ServiceNow, resolving Windows, Microsoft 365, application, hardware, and access-related incidents.
- Administered Active Directory user accounts, including onboarding/offboarding, account access, group membership, authentication, and user access troubleshooting.
- Troubleshoot Microsoft Office 365, Teams, Outlook, OneDrive, Cisco AnyConnect VPN, MFA/2FA, network connectivity, and remote-access issues for 1,000+ remote users.
- Managed incidents and service requests in ServiceNow, maintaining accurate ticket documentation, prioritization, troubleshooting details, escalations, and SLA compliance.
- Escalated unresolved technical issues to L2/L3 teams with complete diagnostic information while maintaining customer-focused communication and effective incident resolution.

MURATA VIOS Pvt Ltd – Bangalore, India **Automation Engineer – Intern**

August 2020 - September 2020

- Supported Ubuntu 18.04/20.04 Linux environments, performing system administration, configuration, troubleshooting, and maintenance activities.
- Assisted with server and system hardening activities to improve infrastructure security and operational reliability.
- Supported cloud migration activities, including infrastructure preparation, migration scripts, and technical troubleshooting.
- Developed and maintained scripts for deployment and release activities, improving consistency in system and application deployments.

LEADERSHIP & CUSTOMER EXPERIENCE

Camino Trading Company Pvt Ltd — London, United Kingdom

2023 – 2025

- Delivered high-quality customer support in a fast-paced retail environment.
- Resolved customer issues efficiently while maintaining a high level of customer satisfaction.
- Trained and mentored new team members on customer service processes and daily operations.
- Collaborated with team members to ensure smooth store operations and achieve service goals.
